Materials, properties and details

Components

The **frame** is composed of round metal rods, Ø11 mm and a wire mesh welded to the frame. The frame is pretreated with one coat of zinc primer and then powder coated with weather resistant polyester varnish of the following colours: embossed black (RAL 9005), embossed traffic white (RAL 9016), embossed sepia brown (RAL 8014) and embossed ruby red (RAL3003).
(The finishings must be considered as **simil-RAL**).

Gliders are made of plastic material, neutral coloured inserted into pre drilled holes on sled base.

Soft **cushion**, attached to the seat is available, padded with CFC-free polyurethane foam and upholstered with outdoor fabric Michelangelo.

Packaging is made of corrugated double wave cardboard box and protectives elements. It contains 2 pcs.
