**The clever way of folding**

---

---

**We deliver the world leading  
folding mechanism **patented** in 2017.**

We deliver clever folding technology,  
you deliver your own table design.

# We know the problem ...

// The problem

# Organising conference tables takes ...

Lots of **SPACE**  
in store rooms

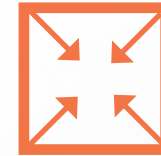

Lots of **TIME**

Lots of **HANDLING**

And often the  
equipment means

A lot of **INFLEXIBILITY**  
due to size

**= Waste of money and time**

# We wanted to find the answer to 16 criteria

FUTURE USERS HELPED DEFINE THESE CRITERIA FOR OUR DESIGN

Folding function	Easy operation	Stiffness	Rethinking material
Simple design	User-friendly	High strength	Range (product)
Stability	Chair suspension	Low weight	Total Cost
Low Stacking Height	Square Meter low use	Optimal stacking	Modular System

# So, this is what we offer ...

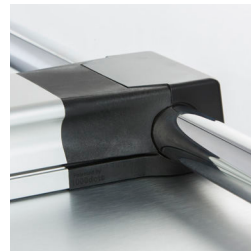

## SAVE SPACE

Furniture that takes a minimum of space

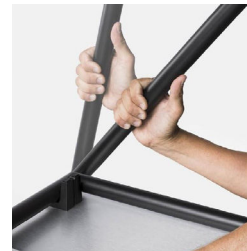

## SAVE TIME

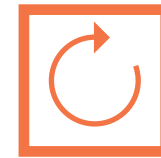

Furniture that is dead easy to put up and down fast

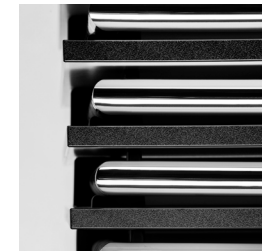

## EASY HANDLING

Furniture that anyone can handle

## FLEXIBILITY

Choose your own size, design, colour

# Your advantages as a producer of furniture

---

- OUR TABLES/FRAMES:**
- Will complement your collection
  - Will enable you to make “concept-sales”
  - Will increase your market share within folding
  - Will increase earnings on folding tables
  - Will support sales of your chairs

# 10 upsides

---

- 01**  
**This is a customizable Product**  
with your own tabletops  
= high quality and long-life product
- 02**  
**Your standard RAL colors and Chrome**
- 03**  
**The table top can be replaced**  
In case of damage of the top
- 04**  
**The frame is EN 15372 L3 tested and can withstand hard stress in harsh environments:**  
Hotels, schools, colleges, prisons, hospitals etc.
- 05**  
**Low stable height 7 cm**  
ALSO when with chair hangers
- 06**  
**10 tables filling less than one m<sup>3</sup> on the Trolley**
- 07**  
**The weight of 140 x 70 table is no more than a suitcase (approx. 23 kgs),**  
depending on the tabletop type
- 08**  
**Easily handled by one person only**
- 09**  
**User-friendly release button for hygienic operation with hands**
- 10**  
**Short delivery times**

# Here's how it works

 WATCH VIDEO

# Space logistics.

1 pallet holds 40 tables

WATCH VIDEO

# Minimum space. 7 cm is enough

---

The low stacking height enables optimal use of storage space

# Clever design

## Easy to operate

---

Push the bottom – easy to operate – release the legs

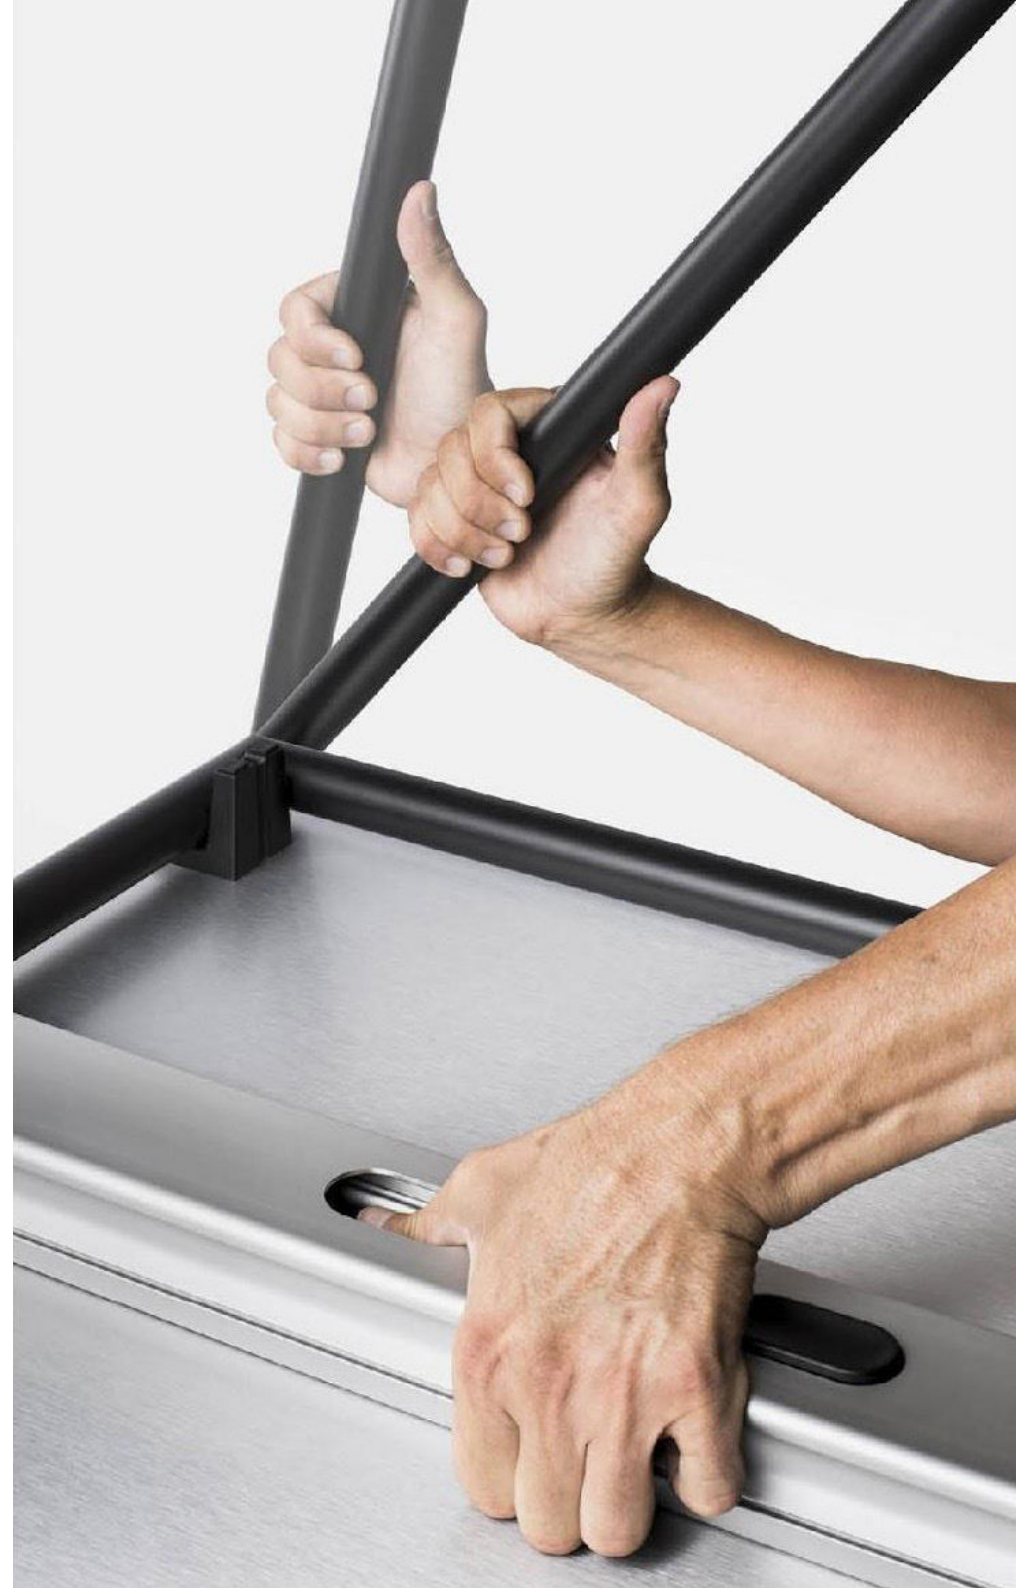

Stable towers is screwed to the table top.

The aluminum rail is ready made for adding chair hangers

Get your own logo on the release button.

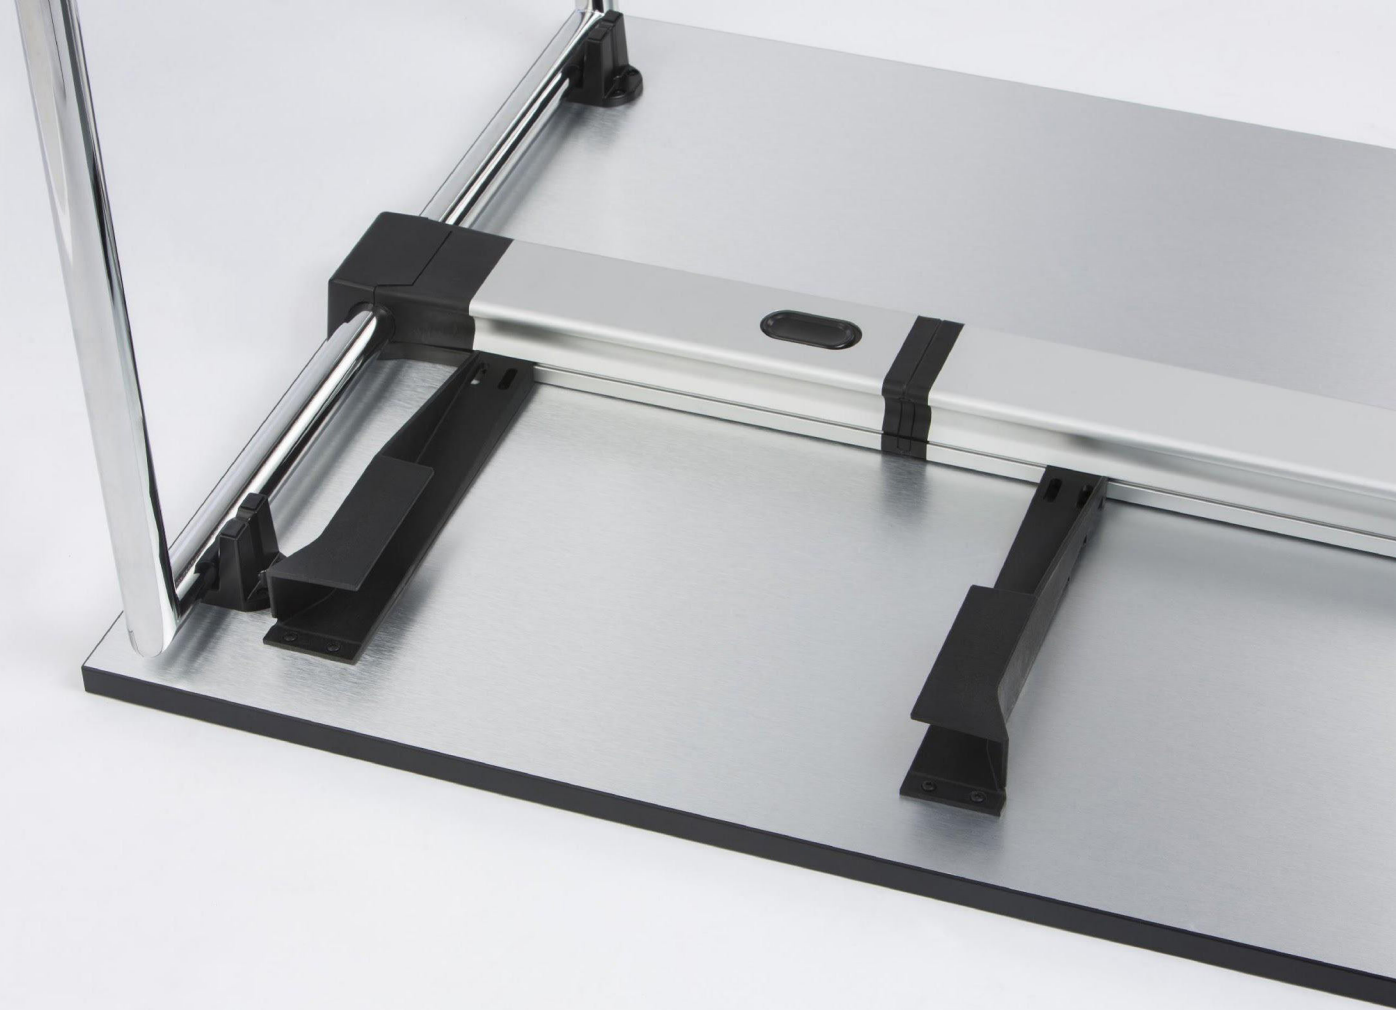

# Here's how it's assembled
