366 Armchair by Józef Chierowski – *the Story behind the Polish Design Icon*

Our name comes from our flagship model – *the 366 Armchair*. It was the most popular piece of *Polish Mid-Century* furniture.

This was partly a matter of luck: in the early 1960s, one of the biggest factories in Poland was destroyed by fire, creating sudden need for simple furniture that could be assembled quickly.

The 366 Armchair was manufactured for over 20 years, with more than million copies sold throughout the Eastern Bloc. Despite such success, this masterpiece never had the chance to be noticed outside of the Soviet sphere of influence.

For years, Józef Chierowski divided his time between working as an interior architect, a designer for the Lower Silesian Furniture Factory in Świebodzice and chairing the Department of Industrial Design at *the National Academy of Arts* in Wrocław, Poland.

He worked on multiple popular furniture pieces, including *the VAR Chair*, yet his most *significant accomplishment* was the design for *the 366 Armchair*, which became a true Icon of *Polish Mid-Century Design*, as well as one of the *most beloved furniture pieces* of the 1950s and 1960s.

STEFAN LOUNGE CHAIR

Story behind:

The Stefan Lounge Chair was designed as the Type 300-139 chair in the early 1960s as an attempt to create Poland's export seater. The piece features a simple modernist and organic form enriched by gently contoured armrests, reminiscent of Danish design classics. The upholstery is formed by 2 independent and portable cushions made of high-density foam to provide outstanding comfort. To combine aesthetics with functionality, cushion covers can be easily washed or exchanged for new ones to change the look of the furniture at any time.

Story behind:

The BRAID fabric has been appreciated by the greatest designers and interior architects. The colors from the collection emphasize the thick woven structure of the material that is pleasant and soft to the touch. Each color has an admixture of white which makes the fabric even lighter and warmer. Its thick braid weave makes furniture very cozy, and combined with the natural color of the wood, it will become an idyllic addition in your homes. The special finish of the fabrics protects them from the rapid seepage of liquids, or even effectively blocks the infiltration of dirt into the fabric.
