Our Environmental Credentials

At Boss Design we are passionate about caring for our environment. We are a carbon neutral company, FSC certified and the proud holder of the Manufacturing Guild Mark Award. We purchase raw materials with the highest recycled content and work with like-minded suppliers who use materials and components obtained only from ethical sources.

We constantly review our global logistics operation to ensure that we minimise any negative impact on the environment.

We actively monitor the carbon footprint of our products throughout their life-cycle and work closely with community transport to deliver our award winning end-of life product management process.

TOTO

Designed by Mark Gabbertas

Combining style and versatility Toto is a family of multi-purpose chairs. Ideal for the demands of the modern workplace, the range is suitable for meetings rooms, breakout areas, dining areas and hospitality environments.

This image shows the high back Toto chair on a 4 leg powder coated steel base.

This image shows the low back Toto chair on a polished 5 star base with tilt mechanism.

Contoured.
Functional.

Toto's contoured form creates a graceful profile and features significant attention to detail in the twin stitch upholstery.

The range consists of a polished aluminium 4 star swivel base, chrome 4 leg frame, European Oak 4 leg frame with white chassis and polished 5 star swivel base with tilt mechanism. Toto is available as a high or low back chair.
