

# Fold

967 ARCH

true

From a portion the whole, from a detail the name: Fold is the first creation by 967 Architects for True. A sofa with two faces: the soft one for the seat and the architectural one for the backrest and armrests. Raised from the floor thanks to a tubular metal base with shaped legs, its wooden body appears even more solid and light despite its consistency. Like a sheet of paper, the wooden sides bend, contrasting the apparent rigidity of the material, to accommodate the ergonomic sinuosity of the upholstery. The family consists of 7 variants: a three-seater sofa with two different depths (82 and 100 cm), a two-seater sofa with two different depths (82 and 100 cm), an armchair with a depth of 82 cm, an armchair with a depth of 100 cm and an asymmetrical dormeuse with a depth of 100 cm. The characteristic fold of the wooden shell determines not only its name, but also the technological and ergonomic research for its realisation.

Da una porzione il tutto, da un dettaglio il nome: Fold è il primo nato di 967 Architetti per True. Un divano a due volti: quello morbido per la seduta e quello architettonico per il fondale di schienale e braccioli. Sollevato da terra grazie ad una base tubolare in ferro con gambe sagomate, la sua scocca lignea appare ancor più materica e leggera seppure nella sua consistenza. Come un foglio, i fianchi in legno si piegano contrastando l'apparente rigidità del materiale, per accogliere la sinuosità ergonomica delle imbottiture. La famiglia è composta da 7 varianti: divano a tre posti con due profondità diverse (82 e 100 cm), divano a due posti con due profondità diverse (82 e 100 cm), poltrona con profondità 82 cm, poltrona con profondità 100 cm e dormeuse asimmetrica con profondità 100 cm. La piega caratteristica della scocca in legno ne determina non solo il nome, ma anche la ricerca tecnologica ed ergonomica per la sua realizzazione.
