Color selection

Selecting the right colors is essential for maintaining a welcoming atmosphere and accurately reflecting the brand's identity. To achieve this, a team of experienced architects and designers meticulously chose the wide, earth-tones-inspired color palette for Mute Modular.

Every color in the palette comes with a broad range of finishing options, including felt, powder-coated metal, oak laminate, and many more.

Customization

It is possible to choose a fabric color outside of the selected color palette. The following catalogues are available for you to choose from:

- Gabriel Cura [Link ↗](#)
- Gabriel Chili [Link ↗](#)
- Kvadrat Remix 3 [Link ↗](#)

If you would like to use fabrics other than those listed above for your project, we need to test samples first. Please note that the testing process can take from 2 to 4 months and does not guarantee that the item will be manufactured according to the ordered specifications. Moreover, the fabrics are subject to individual pricing. The order delivery times may change depending on the availability of the selected fabric.

The image shows the cover of the 'System book' for Mute Modular. The top left corner features the text 'Modular | MUTE.' in a small font. Below it, the title 'System book' is prominently displayed in a large, bold, sans-serif font. Underneath the title, there is a small, light-colored button with the text '09/24 | EN'. The main visual on the cover is a photograph of a modern office interior. The office is furnished with a desk, chairs, and a lamp, and is separated from the rest of the space by a series of vertical, light-colored slats that create a semi-transparent partition.

System Book

This document is a part of System Book - a publication on everything the architect needs to know about Mute Modular, including the story, functionalities, elements and finishings.
