

Spring

Design by
Edi & Paolo Ciani

Scocca / Shell
Poliuretano
/ Polyurethane

Gambe / Legs
Faggio, Frassino
/ Beech, Ash

Linee morbide e accoglienti unite alla raffinata cura dei dettagli, come le peculiari cuciture a vista di qualità sartoriale, fanno di Spring una seduta davvero speciale. La particolarità che cattura immediatamente lo sguardo, è proprio la naturale fusione tra la scocca e le eleganti gambe disponibili in diverse essenze, che vanno a creare un legame indissolubile. Spring completa la proposta di stile con un programma moderno e versatile composto da quattro modelli di tavolino. Lo speciale piano è in Fenix-NTM®, idrorepellente, altamente resistente ai graffi e all'invecchiamento dovuto agli effetti della luce.

Soft and welcoming lines combined with refined care for details, such as the visible stitching displaying customised tailoring quality, make Spring a truly special chair. The particular feature that immediately captures one's attention is the natural fusion between the shell and the elegant legs available in various materials that create an indissoluble link. Spring rounds out the stylistic offers with a modern and versatile programme composed of four table models. The special surface is made in Fenix-NTM®, water repellent, highly resistant to scratches and ageing due to the effects of light.
