Support

6 complimentary rooms that are an essential part of office management

System-dedicated furniture

A wide range of wall-mounted furniture for endless arrangement possibilities.

Every element can be hung at any wall and height for unprecedented accessibility and simplicity.

MUTE.

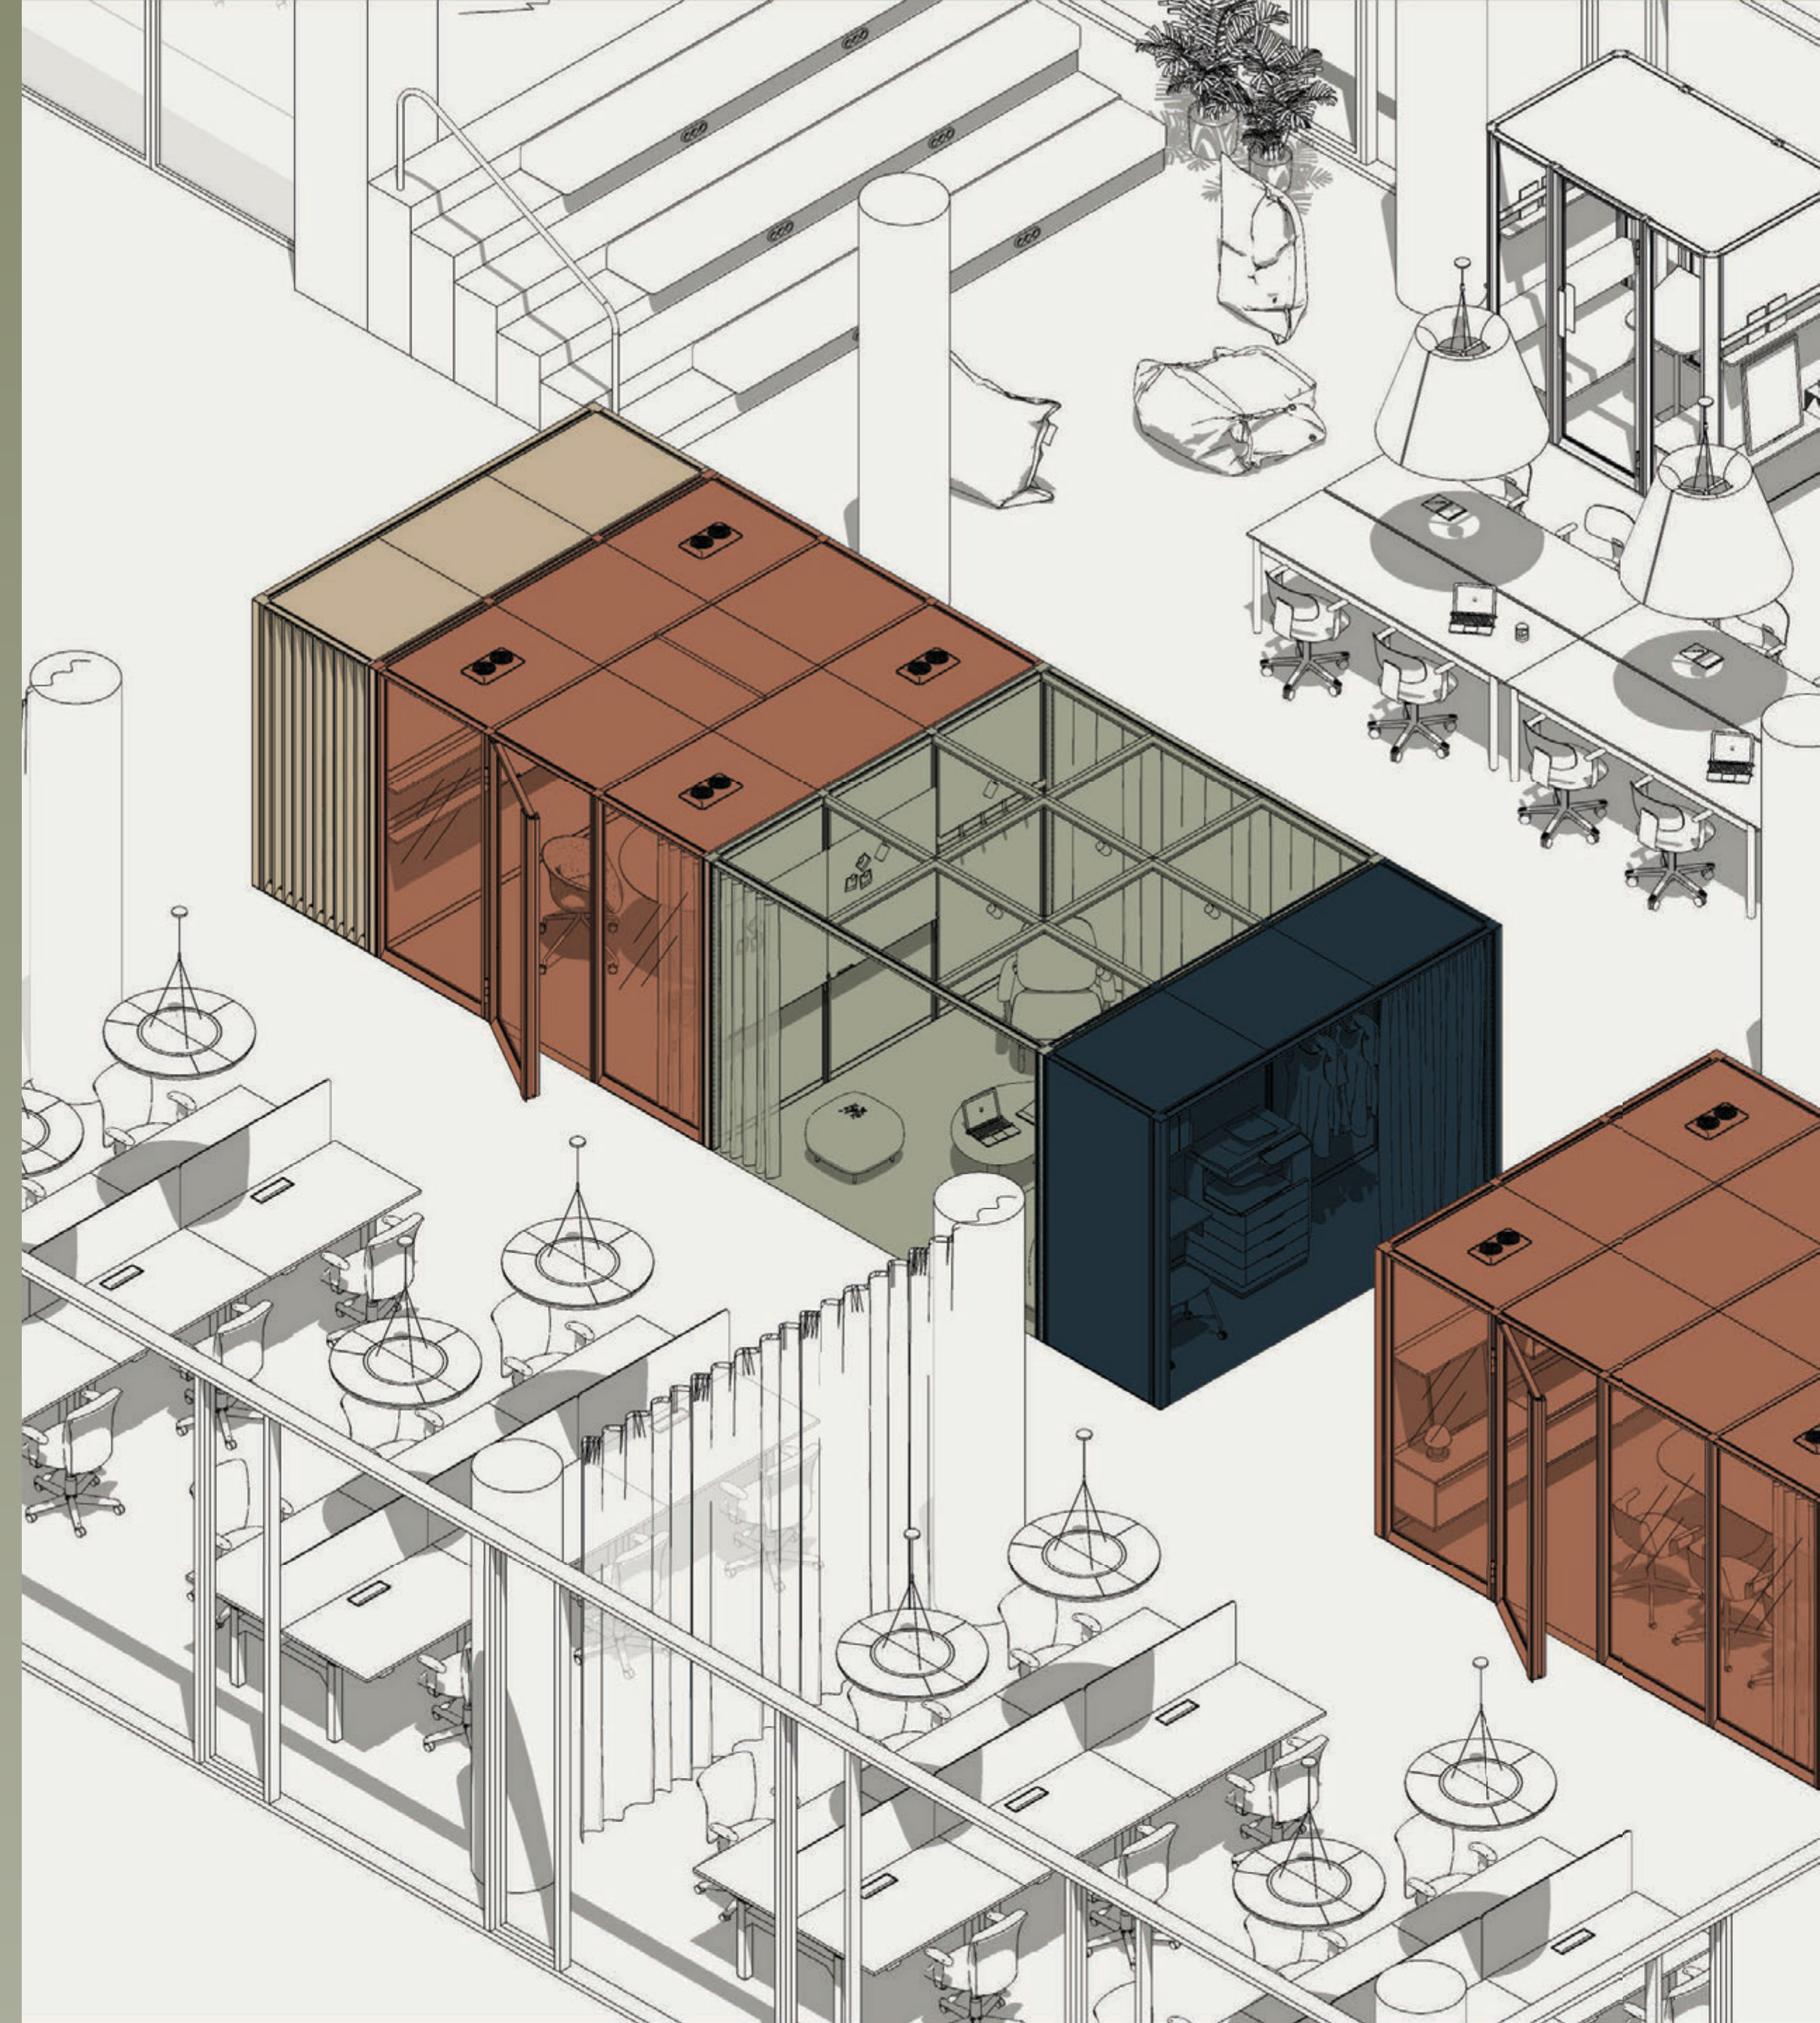

Living solution

Flexible so that each room can be easily reconfigured and changed according to your current needs.

Easiest-in-class assembly makes changes feasible in just few hours.

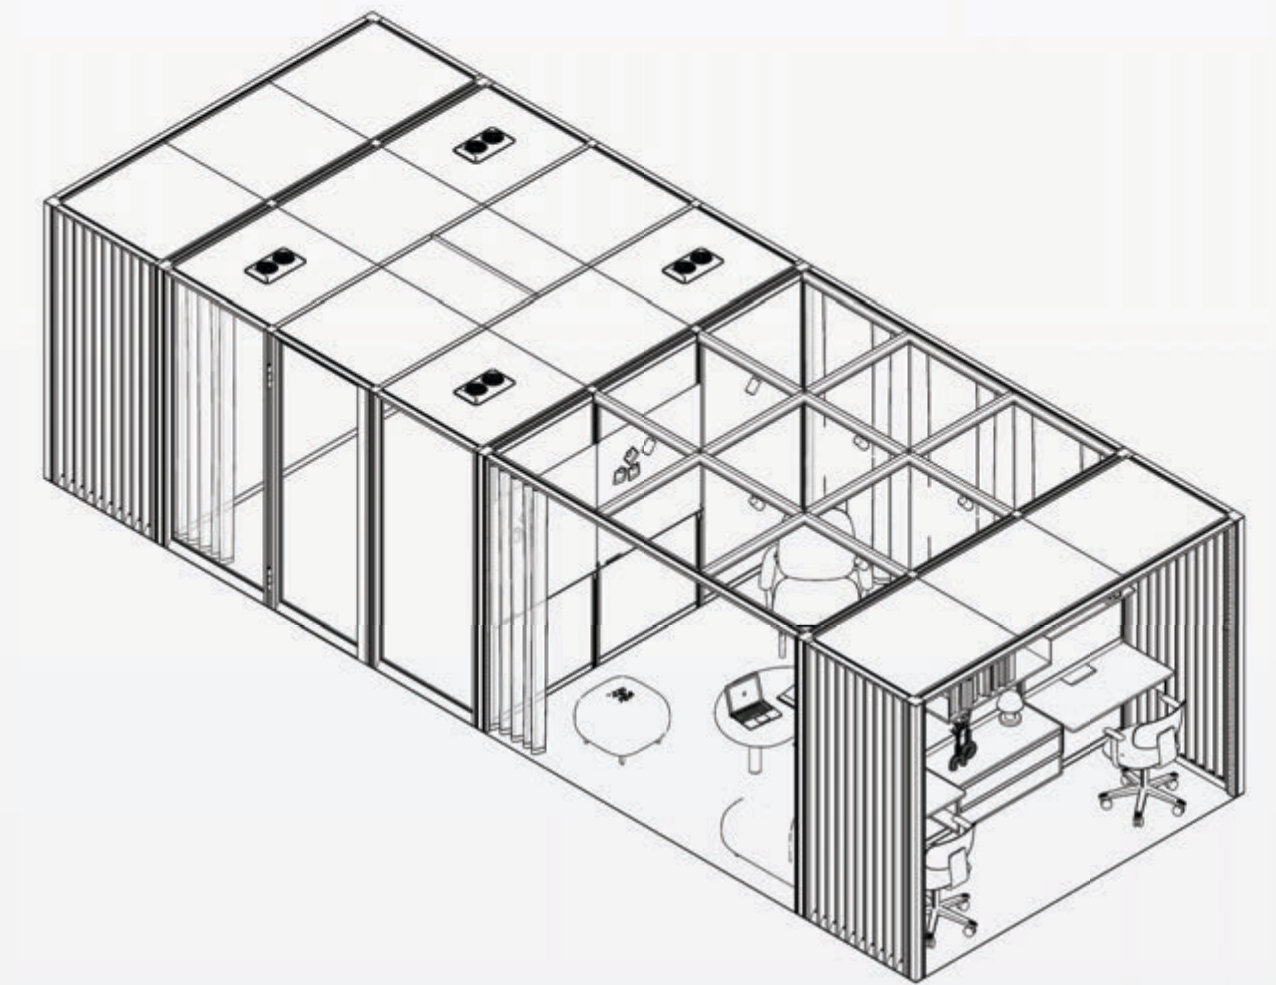

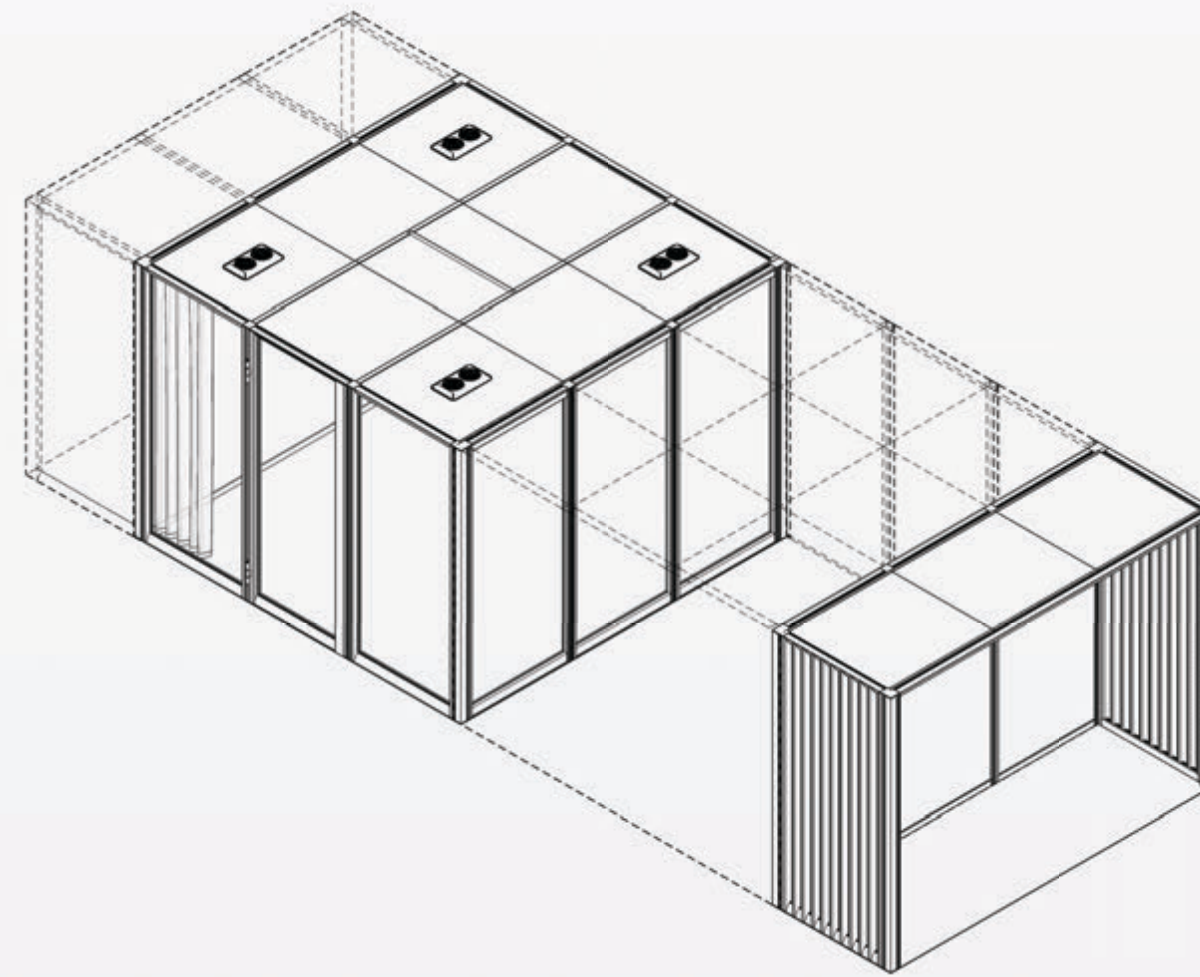

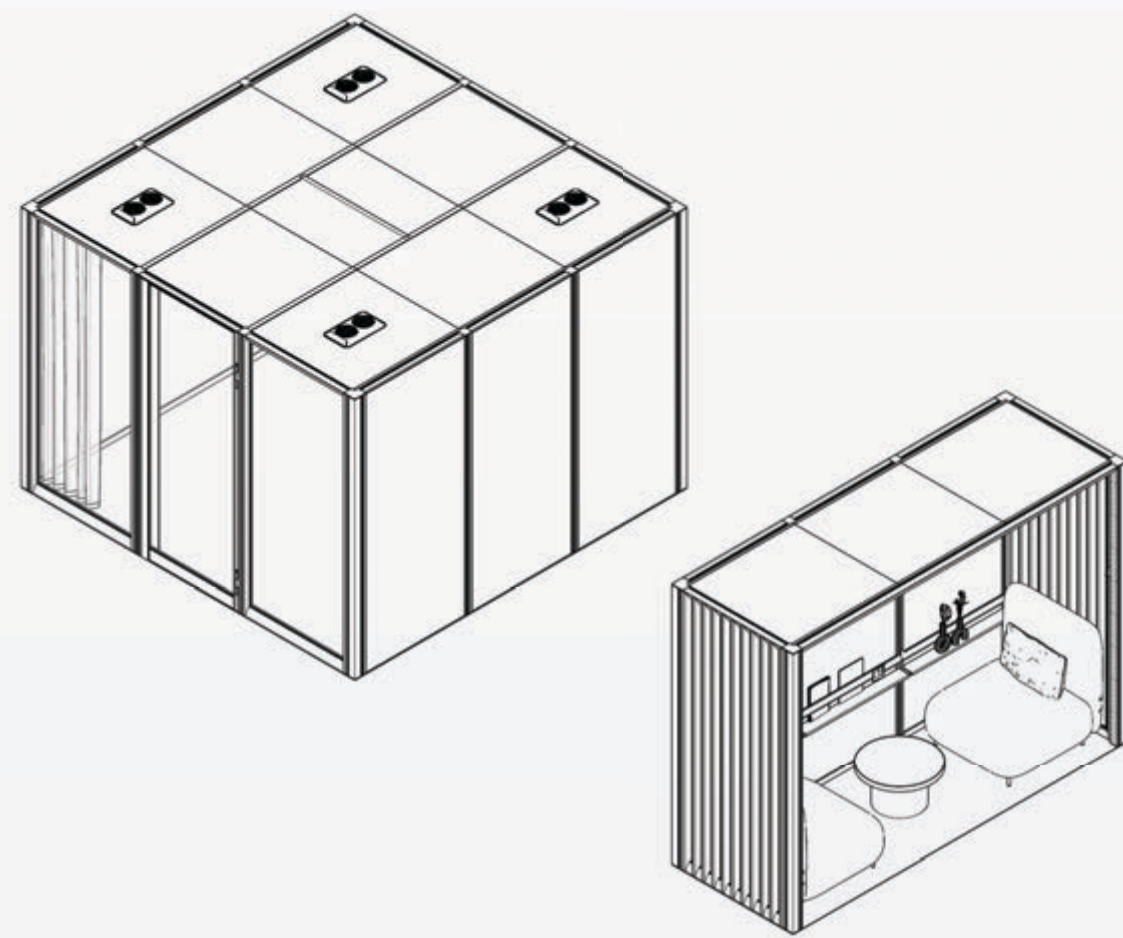

Cost-effective and agile solution to meet the current needs and trends.

MUTE.

MUTE.

Rooms can exist solo or can be combined in one multifunctional object

Plug & Play

Freestanding

Ready to be built anywhere with no impact to the construction of the building.

No-tools assembly

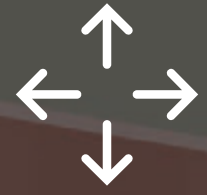

Patent-pending assembly system to simplify the work, save your time and money.

Wall-mounted furniture

Additional furniture can be easily hung at any wall or height, making arranging the space easy and seamless.

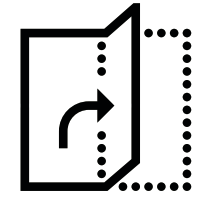

MUTE.

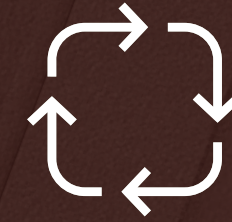

Flexible alternative

OmniRoom is a perfect alternative to building masonry and plasterboard constructions.

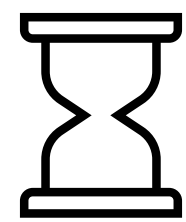

Designed for disassembly

Our engineers implemented DfD tactics to ensure the next practical use of each OmniRoom's part.

Hero aluminum

Aluminum is 100 percent recycled material that can be reused over and over again.

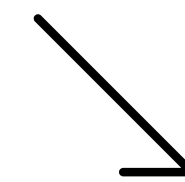

Long-term investment

Highly durable components and modularity makes it a lifetime investment.

Easy-repairable

Constructed entirely of easy-replaceable elements. So if needed, the repair is quick, cheap, and easy.

Light on CO2

Lightweight construction reduces CO2 emissions in production and transportation.
