

WAVE

Favaretto & Partners

true

The Wave series is the result of a gesture, a natural movement that gives birth to sinuous and minimal forms without neglecting the functionality of the object. It consists of wall shelves, free standing modular bookcases and practical tea tables. Wave is a complement made of metal sheets, the furniture elements are perfectly suited for public and private work environments, characterized by constantly changing working methods.

La serie Wave nasce da un gesto, un movimento naturale che dà vita a forme sinuose e minimali senza mai tralasciare la funzionalità dell'oggetto. Si compone di mensole a muro, librerie modulari "free standing" e pratici tea table. Completamente realizzati in lamiera di metallo, gli elementi d'arredo si adattano perfettamente ad ambienti di lavoro pubblici e privati, caratterizzati da modalità lavorative in continuo mutamento.
