

Flow Out

Defne Koz e Marco Susani

true

Born from a project by Defne Koz and Marco Susani, the design of this stool is shaped by a fluid and sinuous continuous line. Flow is a stool designed in three different heights to meet different ergonomic needs. On the backrest, the steel rod draws a handle that makes moving the seat quick and easy.

Nata da un disegno di Defne Koz e Marco Susani, la sagoma di questo sgabello è definita da una linea continua fluida e sinuosa. Flow è uno sgabello progettato in tre varianti di altezza per assecondare le diverse esigenze ergonomiche. Sullo schienale il tondino di acciaio disegna una maniglia che rende lo spostamento della seduta facile e veloce.
