OVERVIEW

Elevate Your Environment

In the pursuit of a modern work setting, Elevar introduces our newest selection of electric and fixed height workstations. The ENV system is a high-quality and budget-friendly option crafted for swift assembly without sacrificing structural integrity. With the increasing need for adaptable work environments, we are committed to enhancing your efficiency with this breakthrough.

At Elevar, we understand that productivity flourishes in an environment that adapts to your needs. ENV is more than just a piece of furniture; it's an investment in your well-being and efficiency. Join the revolution of modern workspaces with Elevar, where innovation meets functionality, and every detail is designed with you in mind.
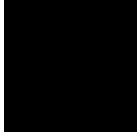

ENV
Features

Quick Install
Premium Finishes

The ENV Range by Elevar – a premium collection of fixed height and electric adjustable desks designed for modern workspaces. Combining sleek aesthetics with advanced technology, ENV enhances productivity and comfort in home offices, corporate spaces, and creative studios.
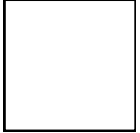

Engineered with next-generation technology, ENV features whisper-quiet height adjustment powered by a motor in each leg, ensuring smooth and reliable performance. Each desk includes a 3-stage height adjustable leg system with built-in min/max height locks, offering maximum flexibility and safety. Built with durable materials and customisable settings, ENV provides an optimal ergonomic experience.

With minimalist designs, premium finishes, and exceptional craftsmanship, the ENV Range complements any workspace. Elevate your environment with a system that blends performance and style effortlessly.

Finish & Warranty

The ENV Electric Adjustable Desk Range is available in a range of stylish finishes, including Pearl White and Jet Black and enhancing both aesthetics and user comfort in any home or commercial environment.

Designed for lasting performance, the ENV Range comes with a 10-year warranty on all structural, mechanical, and electronic components, offering peace of mind for professionals who demand reliability.

The Elevar ENV Range is AFRDI Blue Tick certified to AS/NZS4442:2018 standards.

Quick
Assembly

ENV Fast Install Bracket

Fast Assembly – Thoughtfully designed for quick installation, saving valuable time on project setups.

Minimal Tools, Maximum Precision – Pre-assembled components and smart engineering ensure a seamless fit with minimal hardware.
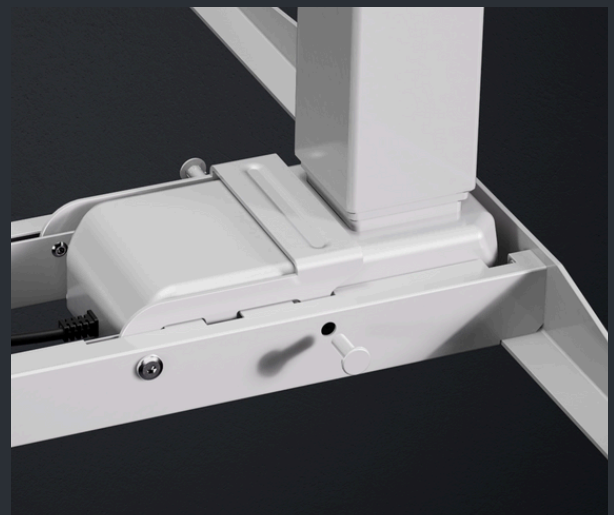

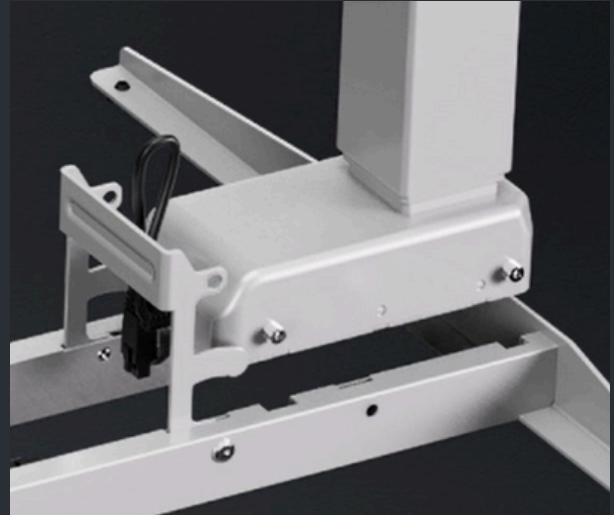

Pre-Installed Cabling – Clean, pre-installed connections maintain a sleek, professional look.

Structural Integrity – Reinforced frame design provides long-term stability without compromising elegance.

Time-Saving Solution – Ideal for project and install teams working on fast-paced fit-outs or custom workspace projects.
