

A modern interior scene featuring a large, modular teal sofa with a high back and segmented base. In the background, there are three ottomans: one teal, one mustard yellow, and one light blue. A portion of a pink ottoman is visible in the bottom right corner. The furniture is set on a light-colored, textured floor against a plain white wall.

SCREEN WALLS AND TABLES TO BUILD ROOMS WITHIN ROOMS. BOB Biz Screen Walls are available in two different widths, Double and Single, we recommend that they be used together with BOB sections with a high back in direct connection. Wooden frame. Molded polyurethane upholstered in fabric or leather. Plastic feet. Built-in connection fitting. Customizable wooden tables. NOTE - The width of each BOB module may vary +0 to +3mm depending on the selected fabric/leather.

BOB Biz Screen Wall Double is assembled with parallel rows of BOB modules facing each other, we recommend BOB with a high back (Back+Seat). BOB sections can be mounted on either side of the BOB Biz Screen Wall if desired. Add one or more BOB Biz Screen Wall Simple as an ending for a closed and more private configuration. Add custom-sized tables to the BOB Biz Screen Wall Double as a natural focal point or use freestanding tables. Recommended maximum number of BOB modules for BOB Biz is 10 per side, which gives a room with a length of 260 centimeters plus wall thickness of 5cm/wall.

ELECTRICAL / USB SOCKET FOR BOB AND BOB JOB. We provide a cut-out for adding electrical components in the front part of the seat on BOB modules. The electrical component is sold separately (see prices below) and is delivered unassembled. The placement of the cut-out must be stated on the BOB Planner drawing that accompanies the order. Important: Blå Station recommends that the installation and any connection to the main electricity supply shall be made by a qualified electrician.

More information about Electrical components for BOB is available on request.

For illustration purposes only. This is a small selection of the BOB Plinth system. We offer plinths for all available modules. Plinths come assembled on delivery if specified in the order. Plinths can also be mounted on delivered BOB builds.

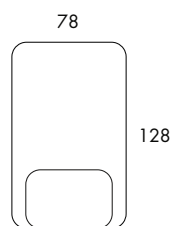

PLINTH. Add a plinth and then BOB becomes part of the hospitality area. With the optional and attachable plinth of +6 cm BOB gets a more structured seat height and invites you to the dinner table.

Let BOB Hospitality be the flexible sofa for restaurants, cafeterias, food courts and offices.

Hospitality Height Plinths are only installed on upholstered parts. Wooden modules remain on the floor, plinths are not needed. PLINTH +6cm Black lacquered wood, gives a total seatheight of 46cm.
