Colors

Selecting the right colors is essential for maintaining a welcoming atmosphere and accurately reflecting the brand's identity. To help you achieve this, a team of experienced architects and designers meticulously chose a 24-color palette for Mute Modular.

The selection consists of carefully balanced tonal variations, drawing inspiration from earthy hues to create a harmonious and natural aesthetic.

With a wide range of light and dark shades, this palette provides endless possibilities for creating dynamic and beautiful design combinations that enhance any workspace.

Recommended matchings

Start with your construction color and explore our recommended finish pairings built around it. For each construction shade, we propose coordinated laminates, upholstery fabrics and wallpapers to help you create a coherent look.

These combinations are provided for inspiration and can be freely mixed across the palette. Please note: they are design suggestions, not exact color matches or color-accurate reproductions.

Customization

As part of product customization, it is possible to choose a different type and color of fabric beyond the standard Mute Modular selection (21 Chili colors). Customization is always subject to individual pricing, which can be provided by your Mute representative.

There are two available paths:

1. For the fabrics listed below, the technical and production feasibility has already been verified, and they are approved for use in wall and ceiling modules as well as sofas. Please note that for the fabrics listed below, the standard production time for an order may extend by 2 to 8 weeks.

Kvadrat [Link ↗](#)

Remix 3, Autumn, Guest, Re-Wool 2

Gabriel [Link ↗](#)

Chili (other colors), Cura, Tonal, Grain, Select, Umber, Mica, Medley, Cyber

Camira [Link ↗](#)

Era, Main Line Flax, X2, Quest, Penta

Fidivi [Link ↗](#)

Demetra, Roccia

2. For fabrics other than those listed above and outside the Mute Modular selection it is necessary to test in advance their technical and manufacturing feasibility for use in wall and ceiling modules and sofas. Please note that the testing process may take from 3 to 6 months. Due to the variation of fabric parameters, we are unable to guarantee that the fabric will be approved for use in the product. The total cost of testing is paid in advance by the customer.
