

# Essence

Norm Architects

true

A family of wood furnishings designed by Norm Architects, drawing inspiration from the very essence of the wood material. Tables, benches, coffee tables, and storage furniture embody the austerity and strength expressed by wood, becoming versatile and ideal objects for both residential and work spaces. The interlocking design of the table, bench, and stool represents the distinctive element of the entire collection: a functional product, but above all unique, thanks to the precise perpendicular intersecting lines.

Una famiglia di arredi in legno firmata da Norm Architects che trae ispirazione dalla natura stessa della materia lignea. Tavolo, panche, coffee table e mobili contenitori declinano l'austerità e la forza espresse dal legno divenendo oggetti versatili e ideali tanto per gli spazi domestici che per quelli di lavoro. Il design a incastro di tavolo, panca e sgabello rappresenta l'elemento distintivo di tutta la collezione: un prodotto funzionale, ma soprattutto unico, grazie alla perpendicolarità delle linee che si intersecano.
