Introduction

Sibillino reinterprets the lounge seating concept through a contemporary, enveloping and organic design. Designed by E-ggs, it combines clean lines and soft volumes, enhanced by a stitching detail that defines the outer shell profile.

Conceived for lounge areas, contemporary living spaces and hospitality environments, it stands out for its sculptural and welcoming presence, creating fluid compositions and balanced atmospheres where comfort and aesthetics interact naturally.

Sibillino reinterpreta la seduta lounge con un design contemporaneo, avvolgente e organico. Disegnata da E-ggs, unisce linee pulite e volumi morbidi, definiti da una cucitura che valorizza il profilo della scocca.

Pensata per spazi lounge, living e hospitality, si distingue per la sua presenza scultorea e accogliente, capace di creare composizioni fluide e ambienti equilibrati, dove comfort ed estetica dialogano con naturalezza.
