

# Bahía Collection

Designed by Emiliana Design Studio

Bahía is the contemporary version of the traditional armchair suitable for long periods of resting, reading or chatting. It is characterised by its curved lines that give it personality and warmth, as well as an enveloping backrest in curved wood that holds the person sitting in it.

Its seat on tensioned straps makes it a very comfortable armchair and the design of its armrests makes it easier to sit down and get up.

Bahía es la versión contemporánea del tradicional sillón orejero indicado para periodos largos de descanso, lectura o tertulia. Se caracteriza por sus líneas curvas que le aportan personalidad y calidez, así como por un respaldo envolvente de madera curvada que parece abrazar a quien se sienta en ella.

Su asiento sobre cinchas tensadas la convierte en una butaca muy confortable, mientras que el diseño de sus apoyabrazos permite sentarse y levantarse con mayor facilidad.

## Bahía Collection

1. Optimal seat height to make it easy to sit down and get up.  
Altura del asiento óptima para facilitar sentarse y levantarse.
2. Cushion on elastic straps for comfortable sitting during long periods of rest.  
Cojín sobre cinchas elásticas para una sentada confortable en largos periodos de descanso.
3. Sanitary gap. The space between the seat and backrest allows breathability and avoids the accumulation of bacteria.  
Sanitary gap (ranura sanitaria) el espacio entre el asiento y el respaldo favorece la transpiración y evita rincones donde pueda alojarse suciedad y bacterias.
4. Armrests designed to facilitate grip when sitting down and getting up.  
Apoyabrazos diseñado para facilitar el agarre al sentarse y levantarse.
5. Rounded edges to avoid injuries and bruises.  
Cantos redondeados para evitar heridas y contusiones.
6. Optimal seat height for easy sitting and getting up.  
Óptimo apoyo lumbar para máximo confort.
7. In the high version, the cervical support is optionally accompanied by the adaptable cushion.  
En la versión alta el apoyo cervical viene acompañado de manera opcional por el cojín adaptable.
