VERGÉS

The Vergés company is located halfway between the Mediterranean and the Pyrenees, a unique rural territory that deeply marks the people of the region. Its volcanic origin conditions the landscape and the vegetation, its spectacular forests are a true exhibition in any season of the year.

The small workshop, founded in 1970 to manufacture handmade boga chairs, something closely linked to the territory, has progressed over the years to adapt to an increasingly demanding market. This evolution required optimising resources and incorporating the latest technologies to convert the original workshop into a modern and dynamic factory. Today, the second generation of the family is driving the new stage of the company without renouncing its origins, the craft, tradition and attention to detail. These principles are reflected in the current collections, highlighting the dialogue between craftsmanship and modernity, and where innovation goes hand in hand with quality materials, design and good finishes.

Today, Vergés products are a point of reference for architects and interior designers looking for quality contemporary furniture to adapt to the demanding world of hospitality and public spaces. In this sense, Vergés' ability to adapt to the needs of each client stands out, offering personalised finishes with high quality fabrics and a wide palette of materials and colours.

In recent years Vergés has launched the Care collection, a family of inclusive furniture with a focus on people with functional diversity. This innovative commitment connects with a greater social sensitivity towards a demographic reality that requires robust and safe furniture that facilitates the lives of all people and contributes to creating more humane and comfortable spaces.

La empresa Vergés está situada a medio camino entre el Mediterráneo y los Pirineos, un territorio rural único que marca profundamente a la gente de la comarca. Su origen volcánico condiciona el paisaje y la vegetación, sus bosques son un verdadero espectáculo en cualquier estación del año.

El pequeño taller, fundado en 1970, para fabricar sillas artesanales de boga, algo muy ligado al territorio, fue progresando a lo largo de los años para adaptarse a un mercado cada vez más exigente. Esta evolución requirió optimizar los recursos e incorporar las últimas tecnologías para convertir el taller original en una moderna y dinámica factoría. Actualmente la segunda generación de la familia impulsa la nueva etapa de la empresa sin renunciar a sus orígenes, al oficio, la tradición y la atención por el detalle. Estos principios se reflejan en las colecciones actuales, destacando el diálogo entre lo artesanal y lo moderno, y donde la innovación va de la mano de la calidad en los materiales, el diseño y los buenos acabados.

Hoy los productos de Vergés son un referente para arquitectos e interioristas que buscan mobiliario contemporáneo de calidad para adaptarse al exigente mundo de la hostelería y los espacios públicos. En este sentido destaca la capacidad de Vergés de amoldarse a las necesidades de cada cliente, ofreciéndole la personalización de los acabados con tejidos de alta calidad y una amplia paleta de materiales y colores.

En los últimos años Vergés ha lanzado la colección Care, una familia de mobiliario inclusivo con una mirada puesta en las personas con diversidad funcional. Esta apuesta innovadora conecta con una mayor sensibilidad social hacia una realidad demográfica que precisa de mobiliario robusto y seguro que facilite la vida de todas las personas y contribuya a crear espacios más humanos y confortables.

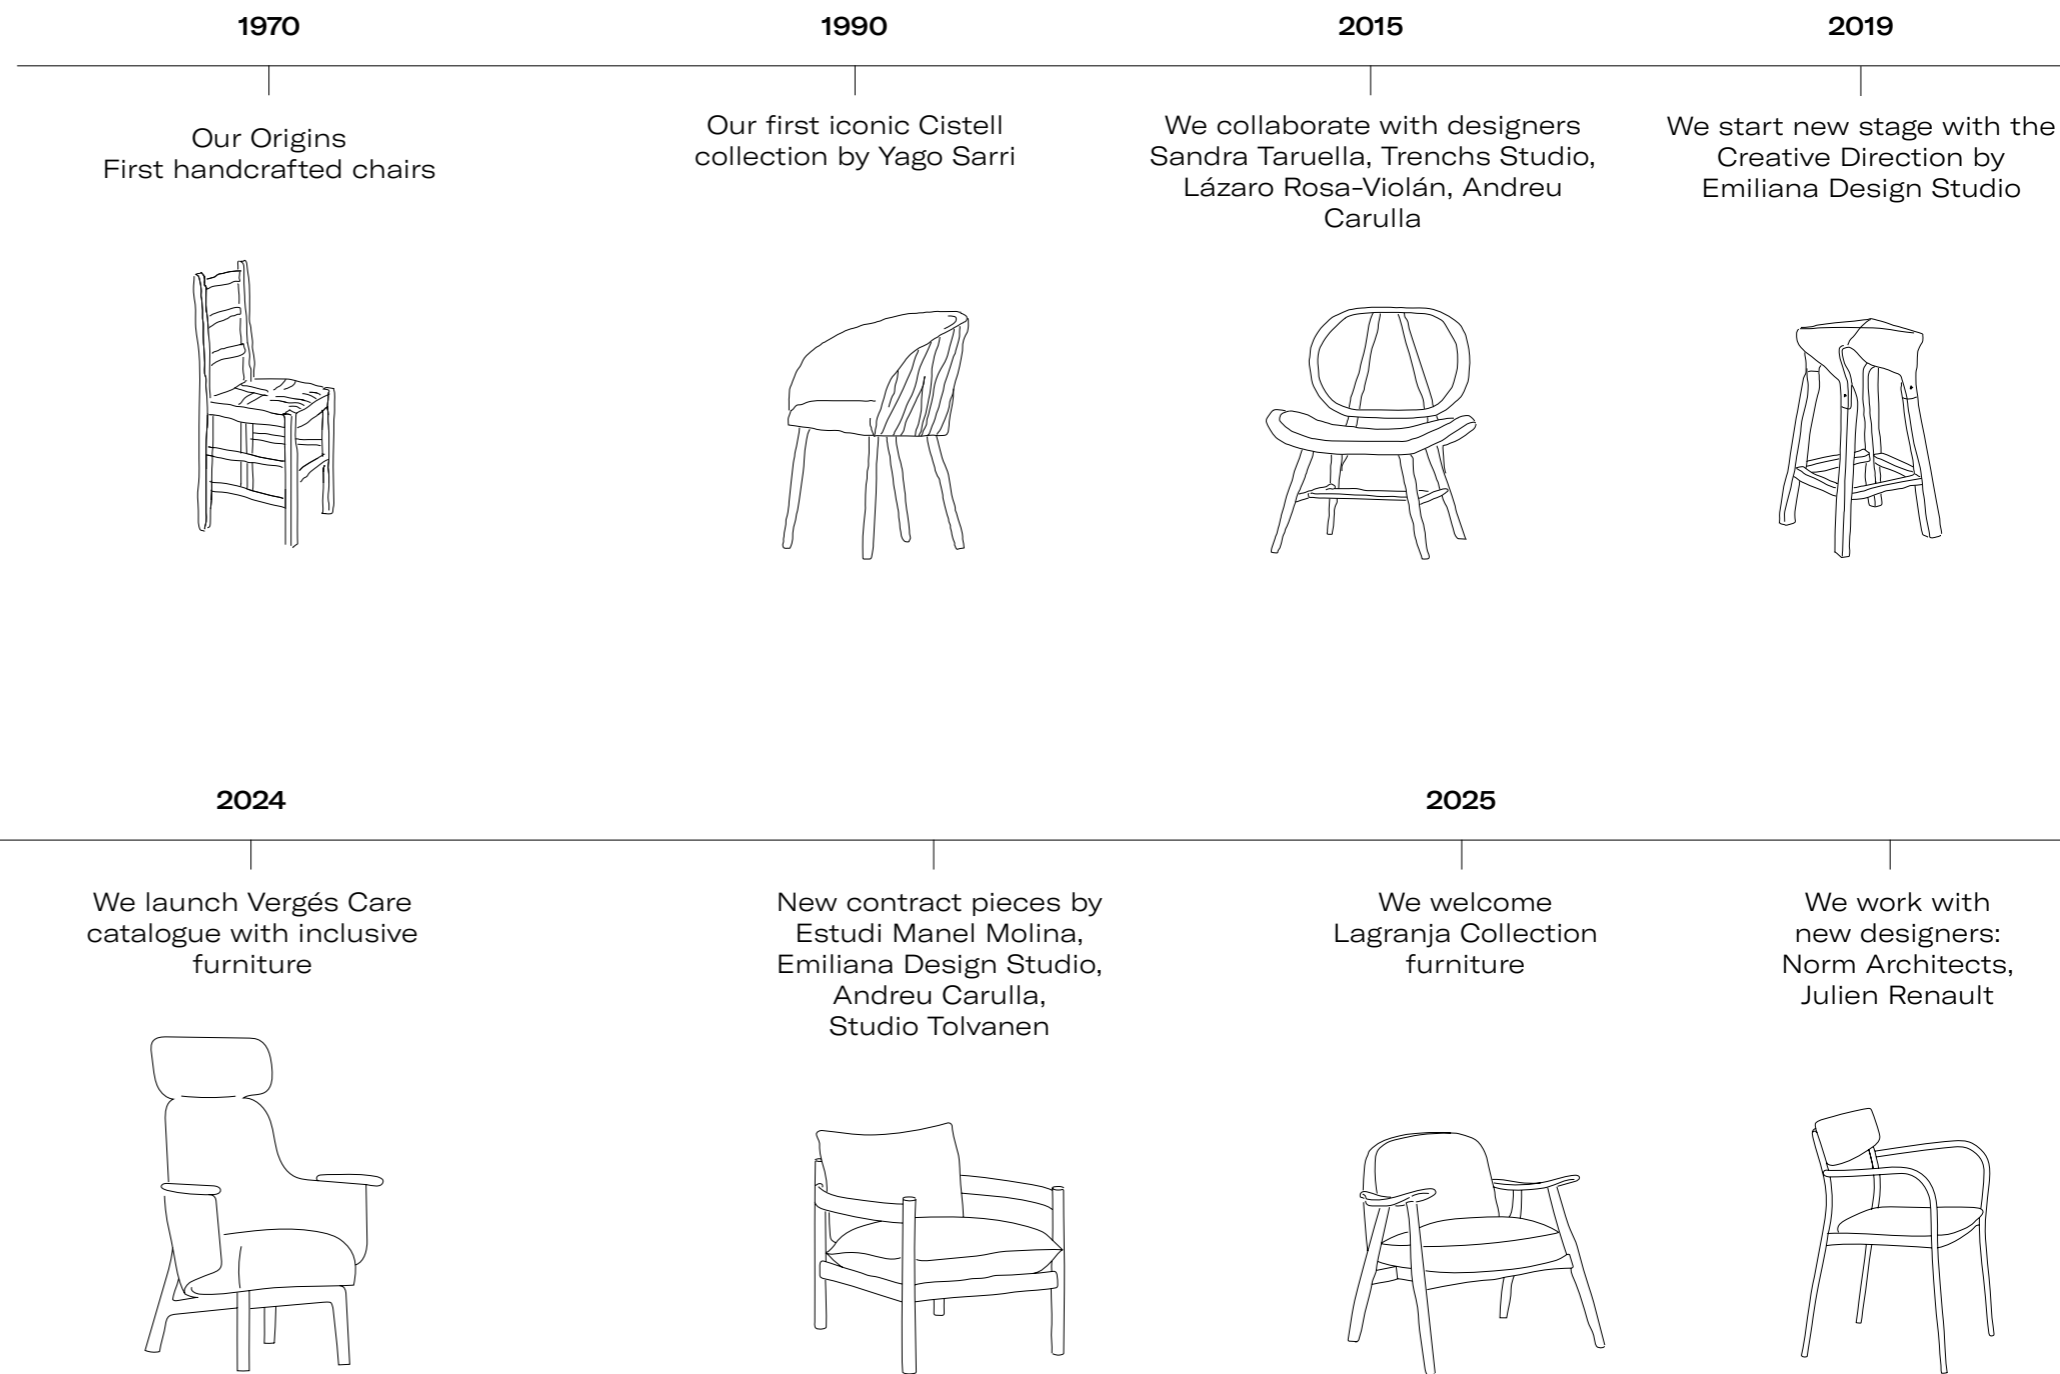

Wood is our passion. We are committed to manufacturing solid, durable and comfortable furniture that ages with dignity and beauty alongside people. At Vergés, we explore new contemporary languages, incorporating innovative techniques that optimise manufacturing, together with the careful craftsmanship that we have been passionately developing for more than 55 years.

La madera es nuestra pasión. Nuestro compromiso es fabricar muebles sólidos, duraderos y cómodos que envejecen con dignidad y belleza al lado de las personas. En Vergés exploramos nuevos lenguajes contemporáneos, incorporando técnicas innovadoras que optimizan la fabricación, junto a una cuidada labor artesanal que venimos desarrollando con pasión desde hace más de 55 años.

In 1970, Silvestre Vergés and Palmira Picart opened a modest workshop for producing the popular wicker chairs. They helped the Vergés company evolve and strengthen its position in the market while always remaining faithful to its roots, the values of local work and artisan tradition. Today, more than 55 years later, their sons Joan and Esteve are overseeing the company's new era with enthusiasm and energy.

En 1970 Silvestre Vergés y Palmira Picart abrieron un modesto taller para fabricar las populares sillas de boga. Siempre fieles a sus orígenes, a los valores del trabajo local y a la tradición artesana consiguieron que la empresa Vergés evolucionara y afianzara su posición en el mercado. Hoy, más de 55 años después, sus hijos Joan y Esteve lideran con ilusión y energía la nueva etapa de la empresa.

The whole chair exudes a sense of balance and tension, where the softly curved lines of its tubular structure contrast harmoniously with the elegantly curved flat elements and the sharp angled joint of the backrest.

Catalina Collection

Designed by Andreu Carulla

Catalina is an honest, elegant, stackable and very versatile chair. With a minimalist aesthetic, it is inspired by 20th century Catalan rationalist architecture, Catalina is a version of the traditional bulrush seat chair. Its refined lines and intentionally simple geometry give centre stage to materials such as ash wood, rope and leather.

Catalina es una silla honesta, elegante, apilable y muy versátil. Con una estética minimalista, que se inspira en la arquitectura racionalista catalana del siglo XX, Catalina versiona la tradicional silla de asiento de enea. Sus líneas depuradas y una geometría intencionadamente sencilla ceden el protagonismo a los materiales como la madera de fresno, la cuerda y el cuero.

The same colour finish is applied to the fiber mesh as to the chair structure. / Aconsejamos siempre aplicar un tinte a la pieza para igualar el color de la madera con el color de la rejilla. Our furniture is designed and manufactured to fit the most demanding contract spaces. For this reason, functionality and durability are essential values in our collections. We want our chairs to last in time, both aesthetically and functionally.

Nuestro mobiliario está diseñado y fabricado para equipar los espacios contract más exigentes. Por esta razón la funcionalidad y la robustez son valores indispensables en nuestras colecciones. Queremos que nuestras sillas perduren en el tiempo tanto estética como funcionalmente.
